PROFESSIONAL SUMMARY

Python developer with hands-on experience in Django, DRF, and FastAPI. I focus on building stable and efficient backend systems and enjoy working across the full stack with React and JavaScript. I'm passionate about clean code, performance optimization, and turning ideas into fully functional web applications.

SKILLS

- Languages: Python, JavaScript, SQL
- Frameworks: Django, DRF, FastAPI, React
- Databases: PostgreSQL, MongoDB, Redis
- Tools: Git, GitHub, VIM, Postman
- Concepts: REST API Design, JWT Auth, OOPs, DSA, CI/CD

PROFESSIONAL DEVELOPMENT EXPERIENCE

Brototype, Kochi

Full-Stack Developer Trainee

- Immersive full-time training in full-stack web development, focusing on Python (Django + DRF), React, SQL/NoSQL, and system design fundamentals.

- Completed 10+ full-stack projects from concept to deployment — each reviewed by senior engineers for scalability, performance, and clean architecture.

- Strengthened backend engineering depth by solving 100+ DSA & LeetCode problems, improving algorithmic thinking and code efficiency.

- Applied Agile development workflow: sprint planning, code reviews, and Git-based collaboration across small teams.

- Integrated CI/CD workflows and followed PEP8 + REST API standards, simulating real-world production environments.

EDUCATION

Bachelor of Computer Applications (BCA) — Indira Gandhi National Open University (IGNOU)

- 2025 – Present

Higher Secondary Education (Commerce with Computer Applications) — Kerala State Board

- (2022–2024)

Full Stack Developer Program (Python | Django | React) — Brototype, Kerala

- Oct 2024 – Present

PROJECTS

- CoreFitness | Django, React, PostgreSQL, Redis, AWS
- Developed a full-featured e-commerce platform (corefitness.site) with secure authentication, OTP via Redis, and Razorpay test-mode payments. Implemented admin dashboard, invoice generation, and hosted backend on AWS.
- Doctor Consultancy App | React, Django REST Framework. Building a full-stack consultation platform with JWT authentication and appointment scheduling.
- Netflix Clone | React, TMDB API | Amazon clone | OLX clone | Weather app
- Created responsive movie browsing interface using API integration.
